Recurring & SaaS Affiliate Income System

Product 41 - Recurring & SaaS Affiliate Income System

Niche: Affiliate Marketing (advanced)
Format: Strategy system for building recurring commissions
Perceived value: $77

Most affiliates chase one-time launch commissions and start every month at zero. This system shows buyers how to build **recurring monthly income** by promoting subscription/SaaS offers - so commissions stack month after month.

What's inside

- This guide - the recurring-income model + how to find and promote SaaS offers
- [`recurring-tracker.md`](recurring-tracker.md) - an MRR planner + retention tactics

Why recurring beats one-time commissions

	One-time	Recurring
Pay	Once per sale	Every month the customer stays
Income shape	Spiky (launch to launch)	Compounding, predictable
Effort over time	Restart each month	Past work keeps paying

> *50 active subscribers at $15/mo recurring = $750/mo that you didn't have to re-earn. Land 50 more next month and you're at $1,500/mo - and so on.*

The recurring-income math (MRR)

Your **MRR (Monthly Recurring Revenue)** = (active referrals) x (avg monthly commission). It grows when you **add** referrals faster than they **churn** (cancel). Two levers: get more, keep them longer.

Where to find recurring/SaaS offers

- SaaS tools with affiliate programs (marketing, AI, design, automation tools).
- Membership sites and communities.
- Subscription software on the networks + major SaaS affiliate programs.
- Look for: monthly recurring %, low churn, sticky product, good onboarding.

How to promote SaaS for the long haul

1. **Demonstrate the tool** - tutorials/reviews show ongoing value (Products 7, 21).
2. **Target "sticky"use cases** - tools people keep using daily.
3. **Help them succeed** - onboarding bonuses reduce churn (you keep earning).
4. **Compare + position**- "best `[tool]` for `[use case]`" content (Product 31).
5. **Build evergreen assets** - reviews/videos that earn referrals on autopilot.

Reducing churn (keep your commissionsalive)

Your commission dies when the customer cancels. So:

- Offer an onboarding/setup bonus so they actually use it.
- Send "get the most out of `[tool]`" tips to your buyers.
- Recommend tools you genuinely believe they'll keep.
- Choose products with strong retention/value.

How to use (for the affiliate)

1. Pick 1-2 recurring/SaaS offers with low churn (Product 20 to vet).
2. Build evergreen review/tutorial content (Products 7, 21, 31).
3. Add onboarding bonuses to reduce churn.
4. Track MRR and focus on adding > churn (`recurring-tracker.md`).

MRR Planner + Retention Tactics

Monthly Recurring Revenue tracker

Copy into a spreadsheet. Track each month so you can see the compounding.

Month	New referrals	Churned	Active total	Avg $/referral	MRR
Jan					
Feb					
Mar					
...					

- **Net new** = New referrals - Churned (you want this positive every month)
- **MRR** = Active total x Avg $/referral
- **Churn %** = Churned / (Active at start of month)

MRR goal calculator

- My monthly income goal: $_______
- Avg commission per referral/month: $_______

- **Active referrals needed** = goal / avg = _______
- If I add _____ net referrals/month, I hit goal in _____ months.

Retention tactics (protect your recurring income)

Onboarding (first 7 days = highest churn risk)

- [ ] Send a "fast start" bonus/guide for the tool
- [ ] Point them to the tool's best first action (the "aha" moment)
- [ ] Offer to answer setup questions

Ongoing value

- [ ] Monthly "get more from `[tool]`" tip email
- [ ] Share new features/use cases as they launch
- [ ] Build a small community/space for your referrals

Smart selection (churn-proofing upfront)

- [ ] Promote tools with genuine ongoing value (daily/weekly use)
- [ ] Avoid tools with known billing/support complaints
- [ ] Favor products with good onboarding built in

Stacking recurring offers

Promote 2-4 complementary recurring tools your audience needs together (e.g., an AI writer + a scheduler + an email tool). Each adds to your MRR and they reinforce each other in your content.

Tool	Recurring % / $	My active referrals	MRR contribution

Recurring income is a snowball: keep net-new positive, keep churn low, and your baseline rises every single month.
