

Affiliate Blog Content Pack

Product 31 - Affiliate Blog Content Pack

Niche: Affiliate Marketing / SEO

Format: Blog post templates + keyword & SEO checklist

Perceived value: \$67

Blog content is the ultimate compounding asset - write once, rank, and earn for years. This pack gives buyers **ready-to-fill blog post templates** for the highest buyer-intent article types, plus a keyword and on-page SEO checklist.

What's inside

- This guide - the buyer-intent content types + keyword research basics
- post-templates.md - fill-in outlines + the SEO checklist

The keyword intent ladder (write for buyers)

Intent	Example keyword	Converts?
Transactional	"buy `[product]`", "`[product]` discount"	Highest
Commercial	"`[product]` review", "best `[category]`", "`[A]` vs `[B]`"	High
Informational	"how to `[task]`", "what is `[topic]`"	Medium (build trust + internal-link to money pages)

Prioritize commercial-intent keywords first - they have buyers; then build informational posts that link to them for authority.

Simple keyword research (no paid tools needed)

1. Type "[product]" and "best [category]" into Google/YouTube; note autocomplete.
2. Check "People also ask" and "Related searches."
3. Look at what's ranking - can you make something more useful?
4. Target long-tail ("best [category] for [specific audience]") - easier to rank.

The 6 blog post types that earn (templates in post-templates.md)

1. **Product review** - "[product] review"
2. **"Best of" listicle**- "best [category] for [goal]"
3. **Comparison** - "[A] vs [B]"

4. **Alternatives**- "best [product] alternatives"
5. **How-to / tutorial**- builds trust, links to money pages
6. **Resource/roundup**- "tools/resources for [goal]"

On-page SEO essentials (full checklist inside)

- Keyword in title, URL, first 100 words, and one H2.
