Product 34 - CopywritingFormulas Swipe Pack

Niche: Affiliate Marketing / Copywriting

Format: 15 proven copy formulas + fill-in examples

Perceived value: \$57

You don't need to be a "writer" - you need formulas. This pack gives buyers **15 time-tested copywriting frameworks** (the same ones top marketers use) with fill-in-the-blank examples, so they can write persuasive emails, ads, and pages on demand.

What's inside

- This guide - when to use each formula + the persuasion basics
- formulas.md - all 15 frameworks with templates + examples

The 4 things all persuasive copy does

1. **Grabs attention** (a hook that stops them).
2. **Speaks to a real desire/pain** (it's about them, not you).
3. **Builds belief** (proof, logic, story).
4. **Drives one action** (a clear, single CTA).

The formulas below are just reliable ways to hit all four.

When to use which formula

Goal	Best formulas
Short ad / social post	PAS, AIDA, 4 U's
Email	PAS, BAB, Story
Sales/bonus page	AIDA, PASTOR, FAB
Headline	4 U's, "How to", APP
Video script	PAS, BAB, Story (Product 7)

The 15 formulas(in formulas.md)

AIDA - PAS - BAB - PASTOR - FAB - 4 U's - APP - PPPP - Star-Story-Solution - QUEST - The 4 P's - AIDCA - SLAP - "How-to" - The 5 Objections

The one rule that beats fancy copy

Clarity > cleverness. Confused people don't buy. Write like you talk, to one person, about one thing they want. Then add a formula for structure.

How to use (for the affiliate)

1. Pick a formula matching your goal (table above).
2. Fill the template with your offer's pain, promise, and proof.
3. Read it out loud - cut anything that sounds stiff.
4. End with ONE clear CTA to your bonus page / link.

15 Copywriting Formulas

Replace [PRODUCT], [PAIN], [BENEFIT], [RESULT]. Each has a structure + a mini example.

1. AIDA - Attention, Interest, Desire, Action

- A: Hook. I: build interest. D: stoke desire (benefits/proof). A: CTA.
- Ex: "Tired of [PAIN]? (A) Here's a faster way... (I) [PRODUCT] helps you [BENEFIT] (D). Grab it + my bonuses here (A)."

2. PAS - Problem, Agitate, Solution

- State problem -> agitate the cost of it -> present the solution.
- Ex: "You're losing sales to other affiliates (P). Every promo you do this way leaves money on the table (A). [PRODUCT] fixes that (S)."

3. BAB - Before, After, Bridge

- Before (their pain) -> After (the dream) -> Bridge (the product).
- Ex: "Right now [before]. Imagine [after]. [PRODUCT] is the bridge."

4. PASTOR - Problem, Amplify, Story, Transformation, Offer, Response

- Great for long-form sales pages and emails. Story + proof do the heavy lifting.

5. FAB - Features, Advantages, Benefits

- Turn each feature into what it does and what it means *for them*.
- Ex: "It auto-generates content (F), so you save hours (A), meaning you post daily without burnout (B)."

6. The 4 U's - Useful, Urgent, Unique, Ultra-specific

- A headline checklist. Hit as many as possible.
- Ex: "Get 30 days of content in one afternoon (useful, specific) - before the bonus closes Friday (urgent)."

7. APP - Agree, Promise, Preview

- Agree with a belief -> promise a solution -> preview what's coming.
- Ex: "Posting daily is exhausting (agree). There's a shortcut (promise). Here's

exactly how (preview)."

8. PPPP - Picture, Promise, Prove, Push

- Paint a picture -> make a promise -> prove it -> push to act.

9. Star-Story-Solution

- Star (relatable hero) -> Story (struggle + turning point) -> Solution (product).
- Perfect for emails and VSLs (Product 7).

10. QUEST - Qualify, Understand, Educate, Stimulate, Transition

- Qualify the reader -> show you understand -> educate -> stimulate desire -> transition to the offer.

11. The 4 P's - Promise, Picture, Proof, Push

- Similar to PPPP; lead with the promise.

12. AIDCA - AIDA + Conviction

- Add a "Conviction" step (proof/guarantee) before the action. Great when trust is low.

13. SLAP - Stop, Look, Act, Purchase

- For short-form/ads: Stop the scroll, get them to Look, prompt an Act, lead to Purchase.

14. "How-To"

- "How to [RESULT] without [PAIN]." Simple, evergreen, high-converting headline.
- Ex: "How to get your first affiliate sale without an audience."

15. The 5 Objections (close the gaps)

- Answer these in your copy: "No time / No money / Won't work for me / Don't believe you / Don't need it now." Address each = remove the reason not to buy.

Quick-fillPAS template (the workhorse)

Problem: *Struggling with [PAIN]?*

Agitate: *It's costing you [consequence] - and it won't fix itself.*

Solution: *[PRODUCT] helps you [BENEFIT] so you can [RESULT].*

CTA: *Get it (+ my bonuses) here -> [LINK]*

Pick a formula, fill it in, read it aloud, cut the fluff, one CTA. That's pro copy.
