Quizzes are one of the highest-converting lead magnets that exist - they're interactive, fun, and give people a personalized result they *want*. This kit shows buyers how to build a quiz funnel that captures leads and routes them to the right affiliate offer.

What's inside

- This guide - how quiz funnels work + the conversion flow
- quiz-templates.md - quiz structures + question/result templates

Why quiz funnels convert so well

- **Interactive** - higher engagement than a static opt-in.
- **Personalized** - people love results about themselves.
- **Segmentation** - answers tell you exactly what to offer each person.
- **Curiosity** - "What's your [X] type?" pulls the click.
- **Natural recommendation** - the result page recommends the *right* offer.

The quiz funnel flow

Quiz title/landing -> Questions (3-7) -> Email capture -> Personalized result
-> Tailored offer recommendation (your affiliate link / bonus page)
-> Follow-up email sequence based on their result

The 4 quiz types that work for affiliates

1. **"What type are you?"** - personality/style quiz (e.g., "What's your affiliate marketer type?"). Result -> matching offer.
2. **"What should you [do/choose]?"** - recommendation quiz (e.g., "Which [tool] is right for you?"). Result -> recommended product (your link).
3. **"Score/assessment"** - "How [ready/optimized] is your [X]?" Result reveals gaps your offer fills.
4. **"Find your [X]"** - diagnostic (e.g., "Find your ideal [niche/strategy]").

Designing a high-converting quiz

- **Title:** curiosity + benefit ("What's Your [X] Type? (60-Second Quiz)").
- **3-7 questions**- short enough to finish, long enough to personalize.
- **Capture email before the result** ("Enter your email to see your result").
- **Result page:** affirm their result + recommend the matching offer + bonus.
- **Follow-up:** tag by result and send a tailored email sequence (Product 4).

Tools to build it

Most quiz/funnel builders work (Interact, Typeform, ScoreApp, or your page builder).
You only need: questions, email capture, result logic, and a redirect/recommendation.

How to use (for the affiliate)

1. Pick a quiz type that ends in your offer being the natural recommendation.
2. Use the templates (quiz - templates .md) to write questions + results.
3. Add email capture before the result.
4. Route each result to the right offer/bonus page; tag for follow-up.
