What's inside

- This guide - channel setup, the video types that earn, and the algorithm basics
- video-seo-checklist.md - per-video SEO + a content plan

Why YouTube wins for affiliates

- **Evergreen:** a review ranks and earns for years.
- **Buyer intent:** "[product] review" searchers are ready to buy.
- **Trust:** video builds more trust than text - higher conversions.
- **Two search engines:** YouTube + Google both surface your videos.

The video types that earn commissions

1. **Reviews** - "[Product] Review 2026" (highest intent).
2. **Tutorials** - "How to [result] with [product]."
3. **Comparisons** - "[A] vs [B]."
4. **Listicles** - "[#] Best [tools] for [goal]."
5. **Case studies** - "How I [result] using [product]."

Use Product 7's scripts to write each one.

Algorithm basics (what actually moves views)

- **Click-throughrate (CTR):** title + thumbnail. Aim for curiosity + clarity.
- **Watch time / retention:** hook in 15 seconds, no fluff, deliver fast.
- **Session time:** end screens + playlists keep people on YouTube (it rewards you).
- **Consistency:** a predictable upload cadence trains the algorithm and audience.
