

Facebook Group & Community Marketing Playbook

Product 22 - Facebook Group & Community Marketing Playbook

Niche: Social Media / Community

Format: Strategy + engagement templates

Perceived value: \$57

A warm community is the highest-converting "audience" in affiliate marketing - members trust your recommendations. This playbook shows buyers how to grow and leverage Facebook Groups (and any community) to drive affiliate sales the right way.

What's inside

- This guide - the two strategies (your own group vs others' groups)
- [engagement - templates.md](engagement-templates.md) - post + reply templates

Two strategies

Strategy A - Build your own group (highest long-term value)

You own the audience, set the rules, and can promote freely (within FB's terms). Slower to start, but it becomes a powerful, warm sales channel.

Strategy B - Add value in others' groups (fastest start)

Find groups where your audience hangs out, become genuinely helpful, and let people find you. **Never spam links** - lead with value; let your profile/answers pull them in.

Building your own group (the system)

1. **Niche it down:** "[Audience] who want [outcome]" - specific beats broad.
2. **Set 3 entry questions** (capture emails / qualify members).
3. **Post daily value** using the content mix (below).
4. **Run weekly rituals:** Motivation Monday, Win Wednesday, Q&A Friday, etc.
5. **Promote periodically:** ~1 in 5 posts points to an offer/bonus page.
6. **Funnel to email:** move members onto your list (you don't own the group).

The content mix (keep it engaging)

Type	%	Example
Value/teaching	40%	Tips, tutorials, mini-lessons
Engagement	30%	Questions, polls, wins
Story/personal	15%	Behind-the-scenes, lessons
Promo	15%	Offer + bonus (spaced out)

Leveraging others' groups (without getting banned)

- Read and follow each group's rules (many ban links).
- Answer questions thoroughly - be the most helpful person in the thread.
- Optimize your profile so it sells for you (clear bio + link).
- Offer a free resource via DM or comment ("happy to share my checklist").
- Build relationships with admins - they can become collab partners.

Compliance

- Follow Facebook's terms + each group's rules.
- Disclose affiliate relationships.
- Don't spam, don't fake engagement, don't mass-DM.

How to use (for the affiliate)

1. Pick Strategy A, B, or both.
2. For A: launch a niched group with entry questions -> email capture.
3. For B: list 5 active groups and start adding value daily.
4. Use the templates to post and engage consistently.
