

The Bonus Stack Strategy Guide

Product 25 - The Bonus Stack Strategy Guide

Niche: Affiliate Marketing

Format: Strategy guide + bonus-stack planner

Perceived value: \$67

When 50 affiliates promote the same offer, ****the bonus stack decides who gets the sale.**** This guide teaches buyers how to assemble, position, and deliver a bonus stack that out-converts everyone else - using the very products in this vault.

What's inside

- This guide - the psychology + the 5-rule bonus framework
- [stack-planner .md](stack-planner.md) - a fill-in planner to build your stack

Why bonuses win the sale

The offer is identical no matter whose link a buyer uses. So the buyer asks: *****Who gives me the most value for the same price?***** A relevant, high-value bonus stack makes that answer obviously **you** - and it justifies buying *now*, through *your* link, instead of later.

The 5 rules of an irresistible bonus stack

Rule 1 - Solve the NEXT problem.

The best bonus removes the obstacle the buyer hits *right after* purchase. (Product helps them do X? Your bonus helps them do X faster / use the result.)

Rule 2 - Stack 3-5, not 1 or 20.

Too few feels thin; too many feels like junk. 3-5 focused bonuses feel premium.

Rule 3 - Anchor the value.

Give each bonus a believable dollar value; total should dwarf the price ("391 in bonuses on a \$27 product").

Rule 4 - Make them complementary, not random.

Each bonus should connect to the offer and to each other (a system, not a pile).

Rule 5 - Add urgency + easy claiming.

A deadline drives action; clear "how to claim" steps prevent confusion and refunds.

Mapping this vault to any offer

If the offer is about...	Stack these products
An AI tool	1 (Prompts), 8 (Repurposing), 14 (AI tools)
Email/marketing software	4 (Email swipes), 6 (Lead magnets), 17 (Headlines)

The bonus page (where it converts)

Deliver the stack on a dedicated page (Product 2): headline, the stack with values, urgency, and how-to-claim steps. That page is your conversion edge.

How to use (for the affiliate)

1. Identify the buyer's NEXT problem after purchasing the offer.
2. Pick 3-5 complementary bonuses from this vault.
3. Assign values; ensure the total dwarfs the price.
4. Build the bonus page (Product 2) + add a deadline.
5. Announce the stack everywhere you promote.

Bonus Stack Planner

Fill this in for each offer you promote. It forces a stack that actually converts.

The offer

- Offer I'm promoting: _____
- Its core promise: _____
- Price: \$_____

The buyer's journey

- What the buyer can do right after buying: _____
- Their NEXT problem/obstacle: _____
- What would make them get results faster: _____

Build the stack (3-5 bonuses)

#	Bonus (title)	Solves what?	Value
---	---------------	--------------	-------

1	` _____ `	` _____ `	` \$ _____ `
2	` _____ `	` _____ `	` \$ _____ `
3	` _____ `	` _____ `	` \$ _____ `
4	` _____ `	` _____ `	` \$ _____ `
5	` _____ `	` _____ `	` \$ _____ `
Total value			` \$ _____ `

Check: Total value should be at least 5-10x the price. If not, add value or raise the perceived value of each bonus.
