

Bonus 1 - The Chat-Command Vault

Bonus 1 - The Chat-Command Vault

260 copy-paste chat commands for FunnelHero AI - 16 categories + power-combo sequences

Value: \$297

How to use: Find the job you want done, copy the exact command, paste it into the FunnelHero AI chat, and watch the page change. Commands are natural-language, so swap any [bracketed] part for your details. Run **power-combo sequences** (end of this doc) in order to build whole sections fast.

Category 1 - Project & Funnel Setup (16)

1. Create a new [offer type] funnel for [product/niche] with [#] pages.
2. Set up a [lead magnet] opt-in funnel with an opt-in page, thank-you page, and a 5-email follow-up.
3. Build a webinar funnel: registration, confirmation, live/replay, and offer page.
4. Create a sales funnel with a long-form sales page, order page, and 2 upsells.
5. Start a tripwire funnel: opt-in -> low-ticket offer -> order bump -> upsell.
6. Set the funnel goal to [leads / sales / bookings] and optimize the layout for it.
7. Use a [modern / minimal / bold / corporate] design style across the whole funnel.
8. Apply my brand colors: primary [#hex], accent [#hex], background [#hex].
9. Set the funnel's default font to [font] for headings and [font] for body.
10. Name this funnel "[name]" and set the niche to [niche].
11. Clone this page and use it as the starting point for the upsell.
12. Add a new page after this one called "[page name]".
13. Reorder the pages so the flow is [opt-in -> bridge -> sales -> order].
14. Connect the CTA buttons so each page links to the next step.
15. Set up a thank-you page that delivers [product/bonus] and asks for the next action.
16. Duplicate this entire funnel so I can make a variation for [audience].

Category 2 - Hero / Above-the-Fold (16)

17. Build a hero section with a headline, subheadline, CTA button, and a hero image on the right.
18. Make the hero full-width with a background image and overlaid text.
19. Add a benefit-driven headline about [main result] and a one-line subhead.
20. Put a prominent CTA button that says "[CTA text]" in the hero.
21. Add a trust line under the CTA: "[e.g., Join 12,000+ users]".
22. Add a short video placeholder in the hero next to the copy.
23. Center the hero text and stack the CTA below it.

24. Add a small badge above the headline that says "[badge text]".
25. Make the hero background a [color] gradient.
26. Add a secondary "Learn more" link beside the main CTA.
27. Shorten the hero headline to under 10 words and make it punchier.
28. Add a 3-bullet benefit list under the hero subheadline.
29. Place a product mockup image in the hero.
30. Add a countdown timer to the hero for [deadline].
31. Make the hero CTA sticky so it follows on scroll.
32. Rewrite the hero to lead with the problem, then the promise.

Category 3 - Headlines & Subheads (16)

33. Write 5 headline options for a [product] targeting [audience].
34. Make this headline more specific by adding a number or timeframe.
35. Rewrite the headline using a "How to [result] without [pain]" format.
36. Add a curiosity-driven subheadline under the main headline.
37. Turn this headline into a question that hooks [audience].
38. Make the headline benefit-focused instead of feature-focused.
39. Write a headline that calls out [specific audience] directly.
40. Add a pre-headline (eyebrow text) above the main headline.
41. Rewrite the section heading to be clearer and shorter.
42. Make this headline punchier and remove filler words.
43. Write a headline that creates urgency around [deadline/offer].
44. Add a "results promise" subhead with a believable specific outcome.
45. Generate 3 A/B headline variations for testing.
46. Rewrite all section headings on this page in a consistent voice.
47. Make the headline emotional and tie it to [desire].
48. Write a headline that contrasts the old way vs the new way.

Category 4 - Body Copy & Sections (16)

49. Add a "problem" section that agitates [pain point].
50. Add a "solution" section introducing [product] as the answer.
51. Write a 3-paragraph story section about [transformation].
52. Add a "how it works" section with 3 numbered steps.
53. Add a benefits section with 6 benefit-driven bullets.
54. Turn these features into benefits: [paste features].
55. Add a "who this is for / not for" section.
56. Write an "about" section that builds authority for [name/brand].
57. Add a comparison section: us vs the alternative.
58. Insert a "what you get" deliverables list.
59. Add a value-stack section that totals up the value.
60. Write a short, scannable section about [topic] with a subhead and 3 bullets.
61. Add a "why now" section that explains the cost of waiting.
62. Make this paragraph shorter and more conversational.

- 63. Add transition copy between this section and the next.
- 64. Rewrite this section in a [friendly / expert / bold] tone.

Category 5 - Offers & Pricing (16)

- 65. Add a pricing section with one plan at [\$price].
- 66. Create a 3-tier pricing table: Basic, Pro, Premium.
- 67. Highlight the [middle] plan as "Most Popular".
- 68. Add an order bump offering [add-on] for [\$price].
- 69. Write a value stack that anchors the price against [\$high value].
- 70. Add a "what's included" checklist to the pricing section.
- 71. Add a money-back guarantee box with [#]-day terms.
- 72. Add a payment-plan option: [#] payments of [\$amount].
- 73. Add a strike-through "regular price" above the current price.
- 74. Insert a bonuses section showing [#] bonuses with values.
- 75. Add scarcity copy: "Only [#] spots / until [deadline]".
- 76. Add a risk-reversal statement under the buy button.
- 77. Create an order page with a summary, form, and trust badges.
- 78. Add a "what happens after you order" reassurance line.
- 79. Build an upsell page for [add-on offer] with yes/no buttons.
- 80. Build a downsell page offering a [lite version] at a lower price.

Category 6 - CTAs & Buttons (16)

- 81. Add a primary CTA button that says "[text]" linking to [next page].
- 82. Write 8 CTA button text options for [offer].
- 83. Make the CTA button [color] so it stands out.
- 84. Add a CTA after every major section on this page.
- 85. Make the CTA larger and add a subtext line under it.
- 86. Change the CTA to first-person ("Start my [result]").
- 87. Add urgency microcopy beside the CTA.
- 88. Make the final CTA section full-width with a strong closing line.
- 89. Add a sticky header CTA that stays visible on scroll.
- 90. Add a secondary low-commitment CTA ("See how it works").
- 91. Add an arrow or icon to the CTA button.
- 92. Add a "no credit card required" line under the opt-in CTA.
- 93. Repeat the main CTA at the top, middle, and bottom of the page.
- 94. Make the button text action-oriented and benefit-led.
- 95. Add hover animation to the CTA button.
- 96. A/B two CTA texts: "[A]" vs "[B]".

Category 7 - Social Proof & Testimonials (16)

- 97. Add a testimonials section with 3 testimonial cards.
- 98. Insert a star-rating row with "[4.9/5 from 2,000+]".

99. Add a logo bar of "as seen in / trusted by" placeholders.
100. Write 3 realistic testimonial examples for [product] (to replace with real ones).
101. Add a featured case-study block with a before/after result.
102. Add a testimonial carousel that rotates [#] quotes.
103. Insert a "join [#] happy customers" counter.
104. Add a video testimonial placeholder with a caption.
105. Add a results screenshot gallery section.
106. Place a single powerful testimonial right under the hero.
107. Add a trust-badge row (guarantee, secure checkout, support).
108. Add an expert/authority endorsement quote.
109. Add a "real people, real results" subhead above testimonials.
110. Format testimonials with name, photo placeholder, and result.
111. Add a social-proof popup notification ("[name] just signed up").
112. Insert a stats bar: [#] users, [#] results, [#] years.

Category 8 - Lead Capture & Opt-in (16)

113. Add an email opt-in form with name and email fields.
114. Make the opt-in single-field (email only) to boost conversions.
115. Add a lead magnet offer headline above the opt-in.
116. Add a 2-step opt-in: button first, then form popup.
117. Add an exit-intent popup offering [lead magnet].
118. Add a privacy reassurance line under the form.
119. Connect this opt-in to my [email tool] list.
120. Add a checkbox for [consent/newsletter].
121. Add an inline opt-in mid-page after the value section.
122. Create a dedicated squeeze page with only a headline, bullets, and form.
123. Add a "what you'll get" 3-bullet list beside the opt-in.
124. Set the form button to say "[Send me the X]".
125. Add a quiz-style opt-in that asks [question] before the email.
126. Add a thank-you message that appears after form submit.
127. Add a phone-number field as optional.
128. Make the opt-in form appear in a centered modal on click.

Category 9 - Forms & Fields (16)

129. Add a [#]-field contact form: name, email, message.
130. Add a dropdown field for "[question]" with options [list].
131. Make [field] required and the rest optional.
132. Add field validation with friendly error messages.
133. Add a multi-step form split across [#] steps.
134. Add a progress bar to the multi-step form.
135. Add a date-picker field for [booking/appointment].
136. Add a file-upload field for [purpose].
137. Set the form's submit action to redirect to [page].

- 138. Add a booking/calendar embed placeholder.
- 139. Add radio buttons for "[choice]".
- 140. Shorten this form to the 2 most essential fields.
- 141. Add a checkbox group for "[multi-select question]".
- 142. Add a confirmation step before final submit.
- 143. Style the form to match the page's brand colors.
- 144. Add an inline success state instead of a redirect.

Category 10 - Images & Media (16)

- 145. Generate a hero image of [description] and place it in the hero.
- 146. Add a product mockup image in the offer section.
- 147. Generate [#] icons for the benefits section.
- 148. Add a background image to this section with a dark overlay.
- 149. Replace this image with one that shows [scene].
- 150. Add a video embed placeholder for [video].
- 151. Generate a banner image sized for the top of the page.
- 152. Add an image gallery of [#] images in a grid.
- 153. Make this image full-width and edge-to-edge.
- 154. Add alt text to all images describing their content.
- 155. Generate a testimonial-section background that's subtle and light.
- 156. Add a "before vs after" image comparison block.
- 157. Compress images so the page loads faster.
- 158. Add a founder/author photo to the about section.
- 159. Generate an abstract background for the CTA section in [color].
- 160. Add an icon next to each step in the "how it works" section.

Category 11 - Layout & Design (16)

- 161. Make this section a 2-column layout: text left, image right.
- 162. Add more white space between sections.
- 163. Make the page background [color] and sections alternate shades.
- 164. Increase the contrast between text and background.
- 165. Add rounded corners and subtle shadows to all cards.
- 166. Align all section headings to the center.
- 167. Make the layout cleaner and more minimal.
- 168. Add a sticky navigation bar with anchor links.
- 169. Set a max content width so lines aren't too long.
- 170. Add dividers between sections.
- 171. Make the benefits a 3-column grid.
- 172. Add an accent color to all section headings.
- 173. Make this section full-width with a colored background.
- 174. Tighten the spacing on mobile.
- 175. Add a footer with links, disclaimer, and copyright.
- 176. Make the overall design feel more [premium / playful / trustworthy].

Category 12 - Mobile & Responsiveness (16)

- 177. Optimize this page for mobile.
- 178. Stack the 2-column section vertically on mobile.
- 179. Increase the button size on mobile for easier tapping.
- 180. Shrink the hero headline font on small screens.
- 181. Hide [element] on mobile to reduce clutter.
- 182. Make images scale to fit mobile screens.
- 183. Add a mobile sticky CTA bar at the bottom.
- 184. Reduce padding between sections on mobile.
- 185. Make the form full-width on mobile.
- 186. Check and fix any text overflow on small screens.
- 187. Make the navigation a hamburger menu on mobile.
- 188. Increase line spacing for mobile readability.
- 189. Reorder sections so the CTA comes sooner on mobile.
- 190. Make the pricing table swipeable on mobile.
- 191. Ensure tap targets are at least 44px on mobile.
- 192. Preview and adjust the whole funnel for mobile.

Category 13 - Funnel Flow & Pages (16)

- 193. Add an upsell page after the order page.
- 194. Add a downsell page after the upsell.
- 195. Create a thank-you page that delivers the product and links to a next step.
- 196. Add a bridge page before the sales page that pre-frames the offer.
- 197. Link this page's CTA to the next step in the funnel.
- 198. Add a confirmation page for webinar registrants.
- 199. Create a replay page with the video and the offer.
- 200. Add an "application" page before a booking call.
- 201. Build a quiz funnel: questions -> email -> results page -> offer.
- 202. Add a one-click upsell button on the upsell page.
- 203. Set the funnel so declining the upsell goes to the downsell.
- 204. Add a survey page that segments leads by [criteria].
- 205. Create a "members area" landing page placeholder.
- 206. Add a "wait, special offer" exit page.
- 207. Map the full funnel flow and show me the page order.
- 208. Add a progress indicator across the funnel steps.

Category 14 - Email & Follow-up (16)

- 209. Write a 5-email welcome sequence for new opt-ins.
- 210. Write a 3-email cart-abandon sequence.
- 211. Write a delivery email for the lead magnet.
- 212. Write a 5-email sales sequence for [offer].
- 213. Generate 10 subject lines for the welcome email.

- 214. Write a re-engagement email for inactive subscribers.
- 215. Write a webinar reminder sequence (1 day, 1 hour, live).
- 216. Write a post-purchase onboarding email.
- 217. Add a PS line with a CTA to each email.
- 218. Write a last-call email for [deadline].
- 219. Make this email shorter and more conversational.
- 220. Write a story-based email leading to [offer].
- 221. Generate a 7-day email course on [topic].
- 222. Write a thank-you + next-step email after a booking.
- 223. Add an unsubscribe and disclosure footer to all emails.
- 224. Write a testimonial-request email for buyers.

Category 15 - SEO & Speed (16)

- 225. Write an SEO title and meta description for this page.
- 226. Add alt text to every image for SEO.
- 227. Suggest a keyword-friendly URL slug for this page.
- 228. Add an H1 and structure the headings as H2/H3.
- 229. Compress and lazy-load images to speed up the page.
- 230. Add schema/structured data for [product/FAQ].
- 231. Add an FAQ section targeting "people also ask" questions.
- 232. Write meta and title variations for A/B testing.
- 233. Add internal links from this page to [other pages].
- 234. Optimize the page's loading speed and report changes.
- 235. Add Open Graph tags for social sharing.
- 236. Suggest 10 target keywords for this funnel's topic.
- 237. Add a canonical tag to avoid duplicate content.
- 238. Make the first 100 words include the main keyword naturally.
- 239. Add descriptive anchor text to all links.
- 240. Minify and clean up the page code for performance.

Category 16 - Editing, Revisions & Fixes (20)

- 241. Make this whole page more concise.
- 242. Fix the spacing/alignment issues in this section.
- 243. Change all instances of [old text] to [new text].
- 244. Make the tone across the page consistent.
- 245. Remove this section.
- 246. Move this section above [other section].
- 247. Undo the last change.
- 248. Make the headline and CTA match the same promise.
- 249. Proofread the page and fix any typos or grammar.
- 250. Make the copy more benefit-driven throughout.
- 251. Reduce repetition across sections.
- 252. Increase urgency on the final CTA.

253. Simplify the language to a 7th-grade reading level.
 254. Make the page flow logically from problem to solution to offer.
 255. Add a disclaimer/affiliate-disclosure line to the footer.
 256. Balance the visual weight of this section.
 257. Replace passive voice with active voice.
 258. Make every section earn its place - cut anything weak.
 259. Tighten the value proposition in one clear sentence.
 260. Do a final conversion review and suggest 5 improvements.
-

Power-Combo Sequences (run these in order)

Combo A - Build a full opt-in page (run 1->6):

1. Create a [lead magnet] opt-in funnel for [niche].
2. Build a hero with a benefit headline about [result] and an email opt-in form.
3. Add a 3-bullet "what you'll get" list beside the form.
4. Add a single testimonial under the hero.
5. Add a privacy reassurance line + disclosure footer.
6. Optimize the page for mobile.

Combo B - Build a sales page (run 1->8):

1. Create a sales page for [product] targeting [audience].
2. Add a hero: headline (problem->promise), subhead, CTA.
3. Add problem -> solution -> how-it-works sections.
4. Add a benefits section (6 bullets) and a value stack.
5. Add testimonials + trust badges.
6. Add pricing with a guarantee and bonuses.
7. Add an FAQ + final urgency CTA.
8. Optimize for mobile and run a conversion review.

Combo C - Add an upsell flow (run 1->4):

1. Add an upsell page for [add-on] after the order page.
2. Add yes/no one-click buttons.
3. Add a downsell page for decliners with a [lite] offer.
4. Link the flow: order -> upsell -> (yes: thank-you / no: downsell -> thank-you).

Combo D - Polish any page (run 1->5):

1. Make the page concise and benefit-driven.
 2. Ensure one clear promise across headline + CTA.
 3. Optimize for mobile.
 4. Add SEO title, meta, and alt text.
 5. Final conversion review with 5 improvements.
