## Bonus 2 - The Model-Matched Prompt Library

105 prompts tuned to the right AI brain (Opus - Sonnet - GPT - Grok) for FunnelHero AI  
Value: \$497

**How to use:** Pick the prompt for the job, note the **[Brain: X]** tag, select that model in FunnelHero AI, swap the [brackets], and generate. Matching the prompt to the right brain is what makes the output read like a pro wrote it on the first try.

### Which brain, and why (quick guide)

- **Opus** - deep, nuanced, long-form. Best for strategy, full sales pages, story/VSL copy, and anything needing persuasion + subtlety.
- **Sonnet** - fast, structured, reliable. Best for page builds, bullets, layouts, variations, and bulk generation.
- **GPT** - versatile all-rounder. Great default for general copy, emails, and edits.
- **Grok** - punchy, current, bold. Best for hooks, edgy social angles, and snappy CTAs.
- **DeepSeek** - efficient and logical. Good for structured/technical or budget runs.

*No "wrong" choice - these are optimizations. If a model isn't available, use the closest match.*

---

### Section 1 - Full Funnel Generation (15)

1. **[Brain: Opus]** "Generate a complete sales funnel for [product] targeting [audience]. Include a bridge page, long-form sales page, order page with bump, one upsell, one downsell, and a thank-you page. Make the copy persuasive and cohesive."
2. **[Brain: Sonnet]** "Build a lead-magnet funnel for [lead magnet]: opt-in page, thank-you page, and structure for a 5-email sequence. Keep it clean and conversion-focused."
3. **[Brain: Opus]** "Create a webinar funnel for [topic]: registration, confirmation, live/replay, and offer page. Write the registration copy to maximize sign-ups."
4. **[Brain: Sonnet]** "Generate a tripwire funnel: opt-in -> [\$low offer] -> order bump -> [\$upsell]. Map each page and write concise copy."
5. **[Brain: Opus]** "Build a high-ticket application funnel for [offer]: value page -> application -> booking page. Write trust-building, qualifying copy."
6. **[Brain: Sonnet]** "Create a quiz funnel for [niche]: 5 questions -> email capture -> personalized results -> matching offer."

7. **[Brain: Opus]** "Generate a book/lead-magnet funnel (free + shipping) for [book] with an order page, bump, and upsell. Write compelling copy."
8. **[Brain: Sonnet]** "Build an ecommerce product funnel: product page, cart, order bump, upsell, thank-you."
9. **[Brain: Opus]** "Create a 5-day challenge funnel for [outcome]: registration, daily delivery pages, and a Day-5 offer page."
10. **[Brain: GPT]** "Generate a simple 3-page funnel (opt-in -> sales -> thank-you) for [offer] that I can launch today."
11. **[Brain: Opus]** "Build a VSL funnel: a video sales page with order section and 2 upsells. Write the VSL script and on-page copy."
12. **[Brain: Sonnet]** "Create a local-business lead funnel for [service]: hero, offer, form, testimonials, map/contact."
13. **[Brain: GPT]** "Generate a coaching funnel: opt-in -> value -> application -> call booking, for [coach/niche]."
14. **[Brain: Sonnet]** "Build a membership/subscription funnel: sales page, checkout, welcome/members landing."
15. **[Brain: Opus]** "Design and generate the highest-converting funnel type for [offer] - recommend the structure first, then build it."

## Section 2 - Page-Level Generation (20)

16. **[Brain: Opus]** "Write a full long-form sales page for [product]: hook, problem, solution, story, benefits, proof, offer, guarantee, FAQ, close."
17. **[Brain: Sonnet]** "Build an opt-in page for [lead magnet]: headline, 3 bullets, form, single testimonial."
18. **[Brain: Opus]** "Write a VSL script (12-18 min) for [offer] using the hook-story-mechanism-offer-close structure."
19. **[Brain: Sonnet]** "Create an order page with order summary, form, bump offer, and trust badges."
20. **[Brain: GPT]** "Write a thank-you page that delivers [product] and drives the next action."
21. **[Brain: Opus]** "Write a bridge page that pre-frames [offer] in my voice before sending to the vendor's page."
22. **[Brain: Sonnet]** "Build a webinar registration page with a benefit headline, 3 'you'll learn' bullets, and a sign-up form."
23. **[Brain: Opus]** "Write an upsell page for [add-on] with a one-time-offer angle and yes/no copy."
24. **[Brain: Sonnet]** "Write a downsell page offering a [lite version] for decliners."
25. **[Brain: GPT]** "Create an about/authority page for [name/brand] in [niche]."
26. **[Brain: Sonnet]** "Build a pricing page with 3 tiers and a highlighted 'most popular' plan."
27. **[Brain: Opus]** "Write a case-study page that tells [customer]'s before/after story and leads to the offer."
28. **[Brain: Sonnet]** "Create a squeeze page with only a headline, subhead, and email

field."

- 29. **[Brain: GPT]** "Write an FAQ page answering the top 10 buyer questions for [offer]."
- 30. **[Brain: Opus]** "Write a 5-day challenge results/offer page for Day 5."
- 31. **[Brain: Sonnet]** "Build a contact/booking page with a form and reassurance copy."
- 32. **[Brain: GPT]** "Create a 404/coming-soon page with an email capture."
- 33. **[Brain: Opus]** "Write a re-engagement 'wait, special offer' exit page."
- 34. **[Brain: Sonnet]** "Build a confirmation page for webinar registrants with add-to-calendar and what-to-expect."
- 35. **[Brain: Opus]** "Write a long-form pre-sell 'advertorial' style page for [offer]."

## Section 3 - Copy Elements (25)

- 36. **[Brain: Grok]** "Write 10 punchy headlines for [product] targeting [audience]."
- 37. **[Brain: Opus]** "Write 5 nuanced, benefit-led headlines that speak to `[deep desire]`."
- 38. **[Brain: Grok]** "Write 15 scroll-stopping hooks for [topic]."
- 39. **[Brain: Sonnet]** "Turn these features into 8 benefit bullets: [paste]."
- 40. **[Brain: GPT]** "Write a subheadline that supports this headline: [paste]."
- 41. **[Brain: Opus]** "Write a problem-agitation section that makes [pain] feel urgent."
- 42. **[Brain: Sonnet]** "Write a 6-bullet 'what you get' deliverables list for [offer]."
- 43. **[Brain: Grok]** "Write 12 bold CTA button texts for [offer]."
- 44. **[Brain: Opus]** "Write a value-stack section anchoring [offer] against [\$value]."
- 45. **[Brain: GPT]** "Write 3 risk-reversal/guarantee statements for [offer]."
- 46. **[Brain: Sonnet]** "Write a 'how it works' section in 3 clear steps."
- 47. **[Brain: Opus]** "Write an emotional story section about [transformation]."
- 48. **[Brain: Grok]** "Write a contrarian 'old way vs new way' section."
- 49. **[Brain: Sonnet]** "Write a 'who it's for / not for' qualifier section."
- 50. **[Brain: GPT]** "Write 3 example testimonials for [product] to replace with real ones."
- 51. **[Brain: Opus]** "Write a closing section that overcomes the top 3 objections."
- 52. **[Brain: Grok]** "Write urgency/scarcity microcopy for [deadline/offer]."
- 53. **[Brain: Sonnet]** "Write an FAQ block of 8 Q&As for [offer]."
- 54. **[Brain: GPT]** "Write a comparison table: [us] vs [alternative]."
- 55. **[Brain: Opus]** "Write a 'why now' section about the cost of inaction."
- 56. **[Brain: Grok]** "Write a bold one-liner value proposition for [product]."
- 57. **[Brain: Sonnet]** "Write transition copy between [section A] and [section B]."
- 58. **[Brain: GPT]** "Write a P.S. section that restates the offer and urgency."
- 59. **[Brain: Opus]** "Write a founder's letter / personal note for the sales page."
- 60. **[Brain: Grok]** "Write 10 pattern-interrupt opening lines for the hero."

## Section 4 - Email & Follow-up (15)

- 61. **[Brain: Opus]** "Write a 5-email story-based welcome sequence for [niche] leading to [offer]."
- 62. **[Brain: Sonnet]** "Write a 5-email launch sequence (open, value, proof, objections,

last call) for [offer]."

63. **[Brain: GPT]** "Write a lead-magnet delivery email with a soft next-step CTA."

64. **[Brain: Grok]** "Write 15 high-open subject lines for [offer]."

65. **[Brain: Opus]** "Write a 7-day email course on [topic] that warms toward [offer]."

66. **[Brain: Sonnet]** "Write a 3-email cart-abandon sequence."

67. **[Brain: GPT]** "Write a webinar reminder sequence (1 day, 1 hour, going live)."

68. **[Brain: Opus]** "Write a re-engagement email for 60-day inactive subscribers."

69. **[Brain: Sonnet]** "Write a post-purchase onboarding email that reduces refunds."

70. **[Brain: GPT]** "Write a last-call email for [deadline]."

71. **[Brain: Opus]** "Write a long-form story email about [your/customer story]."

72. **[Brain: Grok]** "Write 5 short, punchy promo emails for [offer]."

73. **[Brain: Sonnet]** "Write a testimonial-request email for recent buyers."

74. **[Brain: GPT]** "Write a 'you missed it' downsell email after a launch closes."

75. **[Brain: Opus]** "Write a nurture email that teaches [lesson] and softly recommends [offer]."

## Section 5 - Research & Strategy (10)

76. **[Brain: Opus]** "Build a detailed customer avatar for [audience] in [niche]: demographics, pains, desires, objections, and their exact language."

77. **[Brain: Opus]** "Recommend the best funnel type and structure for [offer] and explain why."

78. **[Brain: GPT]** "List the top 10 objections buyers have about [offer] and how to answer each on the page."

79. **[Brain: Opus]** "Analyze this offer and suggest the strongest angle to sell it: [paste]."

80. **[Brain: Sonnet]** "Give me 10 angle ideas for promoting [product] to [audience]."

81. **[Brain: GPT]** "List 15 phrases my [audience] would actually use to describe [problem]."

82. **[Brain: Opus]** "Map the ideal buyer journey for [offer] from cold to purchase."

83. **[Brain: DeepSeek]** "Outline the page-by-page structure for a [funnel type] funnel."

84. **[Brain: GPT]** "Suggest a bonus stack to increase conversions for [offer]."

85. **[Brain: Opus]** "Identify what's missing from competitor offers [list] that I can emphasize."

## Section 6 - Images & Visuals (10)

86. **[Brain: Grok-X / image]** "Generate a hero image: [scene], bright, with space for text overlay, 16:9."

87. **[Brain: Luma / image]** "Generate a product mockup of [product] on a clean background."

88. **[Brain: DeepAI / image]** "Generate [#] simple flat icons for the benefits section."

89. **[Brain: Grok-X / image]** "Generate a banner image for the top of the page in [color] theme."

90. **[Brain: Luma / image]** "Generate a lifestyle image of [audience] using [product]."
91. **[Brain: DeepAI / image]** "Generate an abstract gradient background for the CTA section."
92. **[Brain: Grok-X / image]** "Generate a 'before vs after' concept image for [result]."
93. **[Brain: Luma / image]** "Generate a founder/author portrait-style image for the about section."
94. **[Brain: DeepAI / image]** "Generate a subtle testimonial-section background."
95. **[Brain: Grok-X / image]** "Generate a set of matching section icons for [topic]."

## Section 7 - Optimization & Revision (10)

96. **[Brain: Opus]** "Review this sales page and give 5 specific conversion improvements: [paste/page]."
97. **[Brain: Sonnet]** "Rewrite this page to be more concise and scannable."
98. **[Brain: GPT]** "Make the tone consistent and benefit-driven across the page."
99. **[Brain: Grok]** "Punch up this headline and CTA to be bolder: [paste]."
100. **[Brain: Opus]** "Strengthen the persuasion in this section without adding hype: [paste]."
101. **[Brain: Sonnet]** "Generate 3 A/B variations of this [headline/CTA/section]."
102. **[Brain: GPT]** "Proofread and fix grammar/clarity on this page."
103. **[Brain: Opus]** "Tighten the core value proposition into one clear sentence."
104. **[Brain: DeepSeek]** "Check the page's logical flow (problem->solution->offer) and fix gaps."
105. **[Brain: Opus]** "Do a full conversion audit of this funnel and prioritize the top 5 fixes."
