## Affiliate Bonus Vault

Ready-to-use digital products you can attach as **bonuses** to any promotion on WarriorPlus, JVZoo, or LaunchpadJV. Each product is self-contained, niche-relevant (affiliate marketing / AI / social media), and written to be repackaged, rebranded, and delivered to buyers immediately.

### How to use these bonuses

1. Pick the products that match the offer you're promoting.
2. (Optional) Rebrand - swap [Your Name], [Your Brand], and links for yours.
3. Export to PDF (for guides/checklists) or upload the HTML (for the bonus page).
4. Deliver via your autoresponder, a download page, or your WarriorPlus/JVZoo

"Deliver Bonus" feature.

5. Announce the bonus in your promo emails and on the bonus page.

*Tip: Bonuses convert best when they remove the next obstacle the buyer hits right after purchasing the front-end offer. Stack 3-5 of these per promo.*
