What's inside

- This file - the avatar, angles, and recommended bonus stack
- swipes.md - emails, social posts, and bonus-page copy (AI-niche specific)

The AI-buyer avatar (pre-filled)

- **Who:** solopreneurs, marketers, creators, and small-biz owners who feel behind on AI.
- **They want:** to save time, cut costs, create more content, and look cutting-edge.
- **They fear:** being left behind, wasting money on tools they won't use, tech overwhelm.
- **Already tried:** free ChatGPT, a few random tools they abandoned.
- **Their words:** "I don't have time," "there are too many tools," "I don't know

where to start," "is this just hype?"

- **Buying triggers:** seeing a peer get results, a clear demo, a time/money saving, fear of falling behind.

Top angles for AI offers (pre-built)

1. **Time-saver:** "Do [task] in minutes, not hours."
2. **Cost-cutter:** "Replace [expensive thing/person] with one tool."
3. **Faceless/no-skill:** "No [design/writing/video] skills needed."
4. **Anti-overwhelm:** "The only AI tool you actually need for [task]."
5. **FOMO:** "Your competitors are already using this."
6. **Demo-driven:** show it working (AI tools sell themselves on demo).

Recommended bonus stack (from the vault)

For an AI tool offer, stack these as your bonuses:

- **#1 AI Prompt Vault** (60 prompts) - so they get results day one
- **#8 AI Content Repurposing System** - multiply the tool's output
- **#48 Custom GPT & AI Assistant Builder** - advanced leverage
- **#32 AI Image & Thumbnail Prompts** (if visual) - bonus value
- **#2 Bonus Page Kit** - to deliver the stack

This stack solves the AI buyer's #1 problem after purchase: "now what do I type?"

Best traffic for AI offers
