## Product 47 - Podcast & Audio Marketing Guide

**Niche:** Social Media / Audio

**Format:** Audio content strategy + episode templates

**Perceived value:** \$57

Audio is an underused affiliate channel with deep trust - listeners spend 20-40 minutes with your voice in their ears. This guide shows buyers how to use podcasts and audio content (including short audio clips) to build authority and drive affiliate sales.

### What's inside

- This guide - the audio opportunity + how to monetize with affiliate offers
- [episode-templates.md](episode-templates.md) - episode formats + scripts

### Why audio builds trust like nothing else

- **Intimacy:** your voice in their ears for long stretches = strong connection.
- **Low competition:** fewer creators than video/text in most niches.
- **Multitaskable:** people listen while driving, walking, working.
- **Repurposable:** one episode becomes clips, quotes, a blog post, and emails.

### Two ways to use audio (you don't need a full podcast)

1. **A real podcast** - recurring episodes on Spotify/Apple/etc. Builds a loyal audience over time.

2. **Audio content / clips** - short audio on social (audiograms, voice posts, X Spaces, IG/FB audio). Faster to start, great for reach.

### Episode formats that fit affiliate marketing

| Format           | What it is                | Affiliate fit                |
|------------------|---------------------------|------------------------------|
| Solo teaching    | You teach one topic       | Recommend a tool at the end  |
| Tool review/demo | Talk through a product    | Direct affiliate promo       |
| Interview        | Guest expert/creator      | Soft mentions + collab       |
| Q&A              | Answer listener questions | Point to offers as solutions |
| Case study       | Break down a result       | The tool/method = your offer |
