What's inside

- This guide - 10 lead-magnet blueprints with structure & angle
- [opt in - copy .md](optin-copy.md) - fill-in-the-blank opt-in page + thank-you copy

Why most lead magnets fail

They attract freebie-seekers, deliver no quick win, and never connect to an offer. A great lead magnet is: **specific**, fast to consume, and a bridge to the paid solution². Each blueprint below is built that way.

The 10 lead-magnet blueprints

1. The Cheat Sheet

One page, scannable, "everything you need on [TOPIC] in one place." Fastest to make, highest perceived utility. Bridge: "The tool that automates this -> [OFFER]."

2. The Checklist

Step-by-step list for [OUTCOME]. Great for processes (launch, setup, audit). Bridge: position [OFFER] as the step that's hardest to do manually.

3. The Swipe File

"[#] proven [emails/headlines/scripts] you can copy." High value, low effort to consume. Bridge: "Want these auto-generated? -> [AI OFFER]."

4. The Template / Toolkit

A fill-in-the-blank doc, spreadsheet, or Canva template. Bridge: the offer that makes the template work faster.

5. The Mini-Course (email)

A 5-day email course teaching one skill. Builds the email relationship and warms toward the offer on day 4-5.

6. The Resource List

"[#] best tools/resources for [GOAL]." Naturally features your affiliate offer as the top pick.

7. The Quiz / Assessment

"What's your [X] score?" Interactive, high opt-in rates, segments your list. Bridge: the result page recommends [OFFER] based on their answer.

8. The Calculator / Worksheet

A simple tool that gives a personalized number (ROI, savings, time). Bridge: "Improve your number with [OFFER]."

9. The Case Study / Report

"How [PERSON] got [RESULT] in [TIME]." Story-driven proof. Bridge: the exact tool/method used = your offer.

10. The Mini-Ebook / Guide

A short, focused PDF on solving one problem. Bridge: a CTA section and PS pointing to the offer.
