

High-Converting Bonus Page Kit

Product 2 - High-Converting Bonus Page Kit

Niche: Affiliate Marketing

Format: Editable HTML template + fill-in-the-blank swipe copy

Perceived value: \$67

Most affiliates lose the sale because their bonus page is ugly, slow, or unclear. This kit gives buyers a **clean, mobile-friendly, copy-paste bonus page** they can launch in 10 minutes - plus the proven copy structure to fill it in.

What's inside

- bonus-page.html - a self-contained, responsive bonus page (no frameworks, no build step - just edit the text and links).
- swipe-copy.md - fill-in-the-blank copy blocks (headline, bullets, bonus descriptions, urgency, FAQ, CTA).

Quick start (for the affiliate)

1. Open bonus-page.html in any text editor.
2. Find/replace these placeholders:
 - {{PRODUCT_NAME}} - the offer you're promoting
 - {{AFFILIATE_LINK}} - your hoplink / affiliate URL
 - {{YOUR_NAME}} and {{YOUR_BRAND}}
 - {{DEADLINE}} - bonus expiry (optional)
3. Edit the 5 bonus slots ({{BONUS_1_TITLE}} ... {{BONUS_5_TITLE}}).
4. Save and upload to any host (your site, Netlify, GitHub Pages, etc.).
5. Drive traffic. The big button goes straight to your affiliate link.

Why it converts

- **Above-the-fold CTA** - buyers see the action immediately.
- **Bonus stack with values** - anchors a total \$ value far above the price.
- **"How to claim" steps** - removes confusion (the #1 refund/chargeback cause).
- **Urgency block** - optional deadline to drive same-session action.
- **Mobile-first** - most affiliate traffic is mobile.

Compliance reminder: include an honest affiliate disclosure (already in the template footer) and follow the vendor's promo rules.
