

Affiliate Promo Email Swipe File

Product 4 - Affiliate Promo Email Swipe File

Niche: Affiliate Marketing / Email

Format: 12 fill-in-the-blank email swipes

Perceived value: \$77

The money in affiliate marketing is in the follow-up. This swipe file gives buyers **12 proven promo emails** that map to a real launch arc - from "soft intro" to "last call" - so they can promote any WarriorPlus/JVZoo offer without writing from scratch.

What's inside

- emails.md - all 12 swipes with subject lines, body, and CTA.

The 5-day launch sequence (core 5 swipes)

Email	When	Job
1 - Soft intro	Day 1	Tease the problem + that a solution is coming
2 - Value/demo	Day 2	Teach something + show the product solving it
3 - Social proof	Day 3	Results, testimonials, your own use
4 - Objections	Day 4	Knock down the top reasons not to buy
5 - Last call	Day 5	Deadline + bonus urgency

The remaining **7 swipes** cover: review email, comparison email, bonus-reveal email, cart-open, cart-close, downsell/"missed it", and a re-engagement email.

How to use (for the affiliate)

1. Open emails.md.
2. Find/replace [PRODUCT], [BENEFIT], [LINK], [DEADLINE], [YOUR NAME].
3. Adjust the tone to match your voice (don't send them word-for-word as a list).
4. Schedule them around the offer's open/close dates.
5. Link to your bonus page (Product 2) for max conversions.

Deliverability tip: keep links to 1-2 per email, avoid spam-trigger words in subject lines, and always honor the offer's promo/spam rules.

12 Affiliate Promo Email Swipes

Replace [PRODUCT], [BENEFIT], [PROBLEM], [LINK], [DEADLINE], [BONUS], and [YOUR NAME]. Keep it conversational.

Email 1 - Soft Intro (Day 1)

Subject lines:

- The thing nobody tells you about [TOPIC]
- I almost gave up on [GOAL]...

Body:

Hey [FIRST NAME],

Quick question: are you still struggling with [PROBLEM]?

I used to think the answer was [COMMON WRONG APPROACH]. It wasn't.

Over the next few days I'm going to show you a much simpler way - and point you to the exact tool I use for it.

Keep an eye on your inbox tomorrow.

- [YOUR NAME]

Email 2 - Value / Demo (Day 2)

Subject lines:

- Here's how to [RESULT] (step-by-step)
- The 3-step shortcut I promised you

Tomorrow I'll show you the proof.

- [YOUR NAME]

Email 3 - Social Proof (Day 3)

Subject lines:

- Proof this actually works
- [RESULT] - receipts inside

Body:

I don't expect you to take my word for it. So here's the proof:

[SCREENSHOT / RESULT / TESTIMONIAL]

This is what happens when you stop [OLD WAY] and start using [PRODUCT].

If you want the same shortcut: [LINK]

[x] "I'm a beginner." -> It's built for beginners; [reason].

[x] "I don't have time." -> It saves time by [benefit].

[x] "Is it worth it?" -> [Risk-reversal / guarantee].

The only real risk is staying stuck with [PROBLEM]. Grab it here: [LINK]

- [YOUR NAME]
