

Affiliate Launch & Promo Planner

Product 29 - Affiliate Launch & Promo Planner

Niche: Affiliate Marketing

Format: Launch planning system + timeline template

Perceived value: \$57

The biggest affiliate paydays come from **launches** - coordinated promotions around a product's open/close dates (the bread and butter of WarriorPlus, JVZoo, and LaunchpadJV). This planner gives buyers the system to plan and execute a profitable launch promotion.

What's inside

- This guide - the launch promo timeline + leaderboard tactics
- launch-timeline.md - a day-by-day fill-in template

Why launches are so profitable

- **Built-in urgency** (cart open/close, early-bird pricing, expiring bonuses).
- **High buyer energy** (everyone's promoting, the market is primed).
- **Leaderboard prizes** (vendors reward top affiliates with cash/bonuses).
- **Stacked commissions** (front-end + multiple upsells in the funnel).

The launch promo timeline (overview)

Phase	When	Your job
Pre-launch	7-14 days before	Warm your audience, build anticipation
Open cart	Launch day	Hit hard: email, social, video
Mid-launch	Days 2-4	Value, proof, objection-handling
Cart close	Final 24-48h	Urgency, last-call, bonus deadline
Post-launch	After close	Downsell, thank, debrief

Pre-launch (the secret to a big launch day)

Most of the win happens *before* the cart opens:

1. Get on the vendor's JV/affiliate page; grab assets + dates.
2. Tease the topic/problem to your list and social (no pitch yet).
3. Deliver value content that pre-frames the offer.

4. Build your bonus stack + bonus page (Products 2, 25).
5. Schedule your launch emails (Product 4) and content (Products 3, 7).

Leaderboard tactics (if you're competing for prizes)

- Concentrate your biggest push on day 1 (when most prizes track).
- Add an extra "fast-action" bonus for early buyers.
- Email more than once on open and close days (segment by openers/clickers).
- Use every channel simultaneously on the key days.

Post-launch (don't skip this)

- Promote the downsell / "you missed it" offer (Product 4).
- Deliver bonuses promptly; ask buyers for testimonials.
- Debrief: clicks, conversion, EPC, best asset (Product 24).
- Save winning swipes for the next launch.

How to use (for the affiliate)

1. Pick a launch with good commissions + a leaderboard (Product 20 to vet it).
2. Fill in the day-by-day timeline (launch-timeline.md).
3. Pre-warm, hit hard on open + close, then debrief.
