Product 44 - Seasonal & Holiday Promo Swipe Pack

Niche: Affiliate Marketing

Format: Year-round promo calendar + seasonal email/social swipes

Perceived value: \$67

Seasons and holidays are built-in reasons to promote - they create natural urgency and put buyers in spending mode. This pack gives buyers a ****year-round promo calendar plus ready-to-adapt seasonal swipes****, so they never run out of timely campaign angles.

What's inside

- This guide - how to use seasonal angles + the promo calendar
- seasonal-swipes.md - the calendar + email/social swipes

Why seasonal promos work

- **Built-in urgency** - the date itself is the deadline.
- **Buyer mindset** - people already expect deals around key dates.
- **Fresh angles** - same offer, new reason to buy.
- **Plannable** - you can prepare campaigns weeks ahead (Product 29).

The 4 types of seasonal angles

1. **Holidays/sales events** - Black Friday, New Year, etc. (discount + bonus urgency).
2. **"New start" moments** - New Year, new quarter, "new you" (goal-driven).
3. **Cultural/seasonal themes** - summer, back-to-school, spring cleaning (themed angles).
4. **Manufactured events** - your own "anniversary sale", "flash bonus weekend".

*You don't need a real discount to use a seasonal angle - an **expiring bonus stack** (Product 25) creates the same urgency, fully in your control.*

How to plan a year of promos

- Map the big dates to your niche (see calendar in seasonal-swipes.md).
- Pick 1 main promo per month minimum.
- Prepare swipes 2-4 weeks ahead (Product 29 timeline).
- Reuse winners year over year (just refresh the angle).

Compliance note

- Only claim discounts/urgency that are real.
- If the "deal" is your bonus stack expiring, say exactly that.
- No fake countdowns or false scarcity.

How to use (for the affiliate)

1. Open the calendar; pick the next 1-2 dates to plan around.
2. Grab the matching email + social swipes.
3. Fill in your offer + (real) urgency/bonus deadline.
4. Schedule with the launch timeline (Product 29).
