

Affiliate SOP & Systems Toolkit

Product 45 - Affiliate SOP & Systems Toolkit

Niche: Affiliate Marketing (advanced)

Format: Standard operating procedures + business dashboards

Perceived value: \$77

Hobbies are random; businesses run on systems. This toolkit turns affiliate marketing into a **repeatable operation** with ready-made SOPs (standard operating procedures) and dashboards - so buyers (and any future team) execute consistently and nothing slips.

What's inside

- This guide - the systems mindset + the core SOPs every affiliate needs
- sops.md - copy-paste SOPs + daily/weekly/monthly dashboards

Why systems beat motivation

Motivation is unreliable; systems are repeatable. When your key processes are documented, you: execute faster, maintain quality, train help easily (Product 43), and free your brain for strategy. **A documented business is a sellable, scalable asset.**

The 7 core SOPs every affiliate needs

1. **Offer selection SOP** - how you vet and choose what to promote (Product 20).
2. **Promo launch SOP** - your repeatable promotion process (Product 29).
3. **Content production SOP** - idea -> create -> publish (Products 3, 8).
4. **Email SOP** - broadcast + sequence process (Products 4, 42).
5. **List growth SOP** - your repeatable lead-gen process (Product 36).
6. **Tracking & review SOP** - how/when you measure and decide (Product 24).
7. **Bonus delivery SOP** - how buyers reliably receive bonuses (Product 2).

The 3 dashboards that run the business

- **Daily dashboard** - the few actions you do every day (post, engage, check stats).
- **Weekly dashboard** - content batched, emails sent, one growth experiment.
- **Monthly dashboard** - metrics review, what to scale/cut, next month's focus.

How to build your operating system

1. For each recurring task, write a simple SOP (steps + standards).
2. Store them in one place (Notion/Google Drive) - your "company wiki."
3. Follow the daily/weekly/monthly dashboards.
4. Review and refine SOPs monthly (they're living documents).
5. Hand them to help when you scale (Product 43).

The compounding payoff

Each documented system is a one-time investment that pays forever: less decision fatigue, fewer dropped balls, faster execution, and a business that can grow beyond your daily involvement.

How to use (for the affiliate)

1. Start with the SOP for your most frequent task (sops .md).
2. Adopt the daily/weekly/monthly dashboards.
3. Document one new SOP per week until your core 7 are covered.
4. Review monthly; delegate from the SOPs when ready.

Copy-Paste SOPs + Dashboards

Adapt each SOP to your tools. Store them all in one "wiki" (Notion/Drive).

SOP 1 - Offer Selection

1. Identify audience's current #1 problem.
2. Find 3-5 candidate offers on the networks.
3. Score each with the scorecard (Product 20).
4. Check refund rate, funnel, commission, reputation.
5. Pick the highest scorer you'd genuinely recommend.
6. Get approval + link; save assets + dates.

Standard: only promote offers scoring 24+/40 that you'd stand behind.

SOP 2 - Promo Launch

1. Set dates + build bonus stack (Products 25, 2).
2. Write/schedule email sequence (Product 4) + content (Products 3, 7).
3. Pre-warm audience (no pitch).
4. Open day: email + post everywhere + pin link.
5. Mid-promo: value, proof, objections.
6. Close: urgency + last call + bonus deadline.
7. Post: downsell, deliver bonuses, debrief (Product 29).

Standard: every promo has a bonus page, a deadline, and a debrief.

SOP 3 - Content Production

1. Pull a topic from the idea list.
2. Create the pillar piece (draft with Product 1).
3. Repurpose into formats (Product 8).
4. Add CTAs to opt-in/bonus page.
5. Schedule across the week (Product 3).

Standard: value 4 : promo 1; every promo piece links to a page, not a raw link.

SOP 4 - Email

1. Choose segment (engaged/relevant).
2. Write/adapt from swipes (Products 4, 37).
3. Run the deliverability per-send checklist (Product 42).
4. Send at the best time; 1-2 links max.
5. Log opens/clicks/sales.

Standard: value emails between promos; never email the dead list.

SOP 5 - List Growth

1. Maintain one strong lead magnet + opt-in (Products 6, 36).
2. Drive chosen traffic sources to it weekly.
3. Welcome new subs immediately.
4. Tag by source/interest.

Standard: every piece of content has a path to the opt-in.

SOP 6 - Tracking & Review

1. Log each campaign's funnel numbers (Product 24).
2. Identify the weakest step.
3. Change ONE variable; re-measure.
4. Keep winners; document the learning.

Standard: decisions are made on data, weekly + monthly.

SOP 7 - Bonus Delivery

1. Buyer purchases through your link.
2. Verify (receipt/affiliate ID).
3. Deliver bonus links automatically or within X hours.
4. Tag as buyer for future offers.

Standard: bonuses delivered fast = fewer refunds.

Daily Dashboard

- ☐ Post / publish today's content
- ☐ Engage: reply to comments + DMs (Product 27)
- ☐ Check stats: clicks, opt-ins, sales
- ☐ One outreach or relationship action

Weekly Dashboard

- ☐ Batch + schedule next week's content
- ☐ Send 1-2 value emails (+ any promo)
- ☐ Run ONE growth experiment
- ☐ Review weekly numbers; note 1 improvement
- ☐ Document/refine one SOP

Monthly Dashboard

- ☐ Full metrics review (Product 24): clicks, conv %, EPC, MRR
- ☐ What to scale / what to cut
- ☐ Plan next month's promos (Product 44 calendar)
- ☐ Update the idea list + swipe folder
- ☐ Set next month's #1 focus

Write it once, follow it always, refine it monthly. Systems turn effort into a business that runs - and can grow beyond you.
