What's inside

- This guide - the full beginner roadmap (read top to bottom)
 - quickstart.md - a 7-day action plan to a first promotion
-

Chapter 1 - What affiliate marketing actually is

You promote someone else's product with a unique link. When someone buys through your link, you earn a commission. No product creation, no inventory, no support.

The 4 players: **you (affiliate)**, the **vendor** (product owner), the **network** (WarriorPlus/JVZoo/LaunchpadJV that tracks sales), and the **customer**.

Chapter 2 - How you actually get paid

- **Commission %:** your cut per sale (often 50-100% on digital launches).
- **Cookies/tracking:** your link tags the buyer so you get credit.
- **Front-end + upsells:** you often earn on the whole funnel, not just the first sale.
- **Recurring:** subscriptions pay you every month.
- **Payouts:** the network pays you on a schedule (instant, weekly, net-30, etc.).

Chapter 3 - Pick a niche (the 3-circle test)

Choose where these overlap: **interest** (you'll stick with it), **demand** (people buy), **commissions** (worth promoting). Popular evergreen niches: make

money online, AI tools, software, health, relationships, hobbies.

Chapter 4 - Find offers to promote

On WarriorPlus / JVZoo / LaunchpadJV, look for: high gravity/sales, good reviews, strong funnel (upsells), reasonable refund rate, and vendor-provided assets. Request approval, grab your link. (Use Product 20 to score offers.)

Chapter 5 - The simplest funnel that works

Traffic -> Your page (review/bridge/opt-in) -> Vendor offer (your link) -> Bonus delivery

Never send cold traffic to a raw link. Capture emails when you can (Product 6).

Chapter 6 - Get traffic

Free: short-form video, SEO, YouTube, communities, email (Product 9). Paid: ads once you have a converting page (Product 13). Pick ONE free + build an email list.

Chapter 7 - Add bonuses to win

When multiple affiliates promote the same offer, **bonuses decide who gets the sale.** Stack 3-5 relevant bonuses (this entire vault) on a bonus page (Product 2).

Chapter 8 - Stay legal & ethical

- Always disclose affiliate links (FTC + network rules).
- Only promote what you'd genuinely recommend.
- No fake scarcity, fake screenshots, or income guarantees.
- Follow each offer's promo rules.

Chapter 9 - Scale

Double down on your best traffic source, build your email list, reinvest in ads, and turn one-off promos into an evergreen review site (Product 11).
