

Affiliate Offer Scorecard & Niche Selection Kit

Product 20 - Affiliate Offer Scorecard & Niche Selection Kit

Niche: Affiliate Marketing

Format: Scoring system + niche selection framework

Perceived value: \$57

Promoting the wrong offer wastes your best traffic. This kit gives buyers a **repeatable scoring system** to vet any offer (and a framework to pick a niche) so they only promote winners.

What's inside

- This guide - the niche selection framework + how to score offers
- scorecard.md - the printable offer scorecard + worksheet

Part 1 - Niche selection (the 3-circle framework)

Pick a niche where these overlap:

INTEREST
(you'll stick
with it)
\
\
COMMISSIONS
(offers worth promoting)

DEMAND
(people actively
buying)
/
/
/

- **Interest:** you can create content on it for months without burning out.
- **Demand:** people are searching and spending (check search volume, active groups, number of offers in the space).
- **Commissions:** decent payouts, ideally with recurring or upsells.

Avoid niches with passion but no money, or money but no offers you can stand behind.

Part 2 - The offer scorecard (score 1-5 each)

Score every offer on these 8 factors before promoting:

#	Factor	What to check
---	--------	---------------

1	Relevance	Does it match your audience's #1 problem?
2	Commission	% and \$ per sale; recurring?
3	Funnel value	Upsells/downsells that pay you too
4	Conversion proof	Sales page quality, EPC, vendor reputation
5	Refund rate	Low = a quality product
6	Demand	Are people actively buying this type?
7	Competition fit	Can you stand out (bonuses/angle)?
8	Trust	Would you genuinely recommend it?

Scoring:

- 32-40: Strong - promote it.
- 24-31: Decent - promote with a strong bonus stack/angle.
- Below 24: Skip it. Your traffic is too valuable.

Part 3 - Red flags (auto-skip)

- High refund rate or lots of complaints
- Hype-y, false-promise sales page you can't stand behind
- No tracking/poor reporting from the vendor
- Tiny commission with no upsells
- Saturated with no way for you to differentiate

How to use (for the affiliate)

1. Use the 3-circle framework to confirm your niche.
2. Score 3-5 candidate offers with the scorecard (scorecard.md).
3. Promote the highest scorer; add bonuses to win the click.
4. Re-score periodically - offers and refund rates change.
